Superintendent's Student Advisory Council (SSAC)

The Superintendent's Student Advisory Council (SSAC) is comprised of students at the elementary, middle school and high school levels. Students will be selected based on the merit of your application, including a recommendation from your school principal. The SSAC leaders should also serve as members of their school's leadership and are expected to share relevant information between the district and your school. The students who participate on the council will play a critical role in district-wide decisions.
